RubberLok Safety Tiles

Safe, shock-absorbant surfacing for areas requiring long-lasting impact protection.

Guardian RubberLok safety tiles guarantee the highest safety standards for playgrounds. They allow children the freedom to play happily whilst mitigating the risk of injury.

The system offers protection where children jump or fall to the ground by attenuating the impact and therefore reducing risk of injury.

The system is also an effective safety covering for nursing homes, recreational areas, school yards, gymnasiums, climbing facilities, walkways and equestrian facilities. Additionally, the tiles can be customised with graphics for educational, games or just visual enhancement. A range of accessories is also available.

- ◆ **Better** – highly durable, 100% recycled material
- ◆ **Faster** – quick and easy to install, less site labour costs
- ◆ **Safer** – shock absorbant for falls from up to 3 metres
- ◆ Superb drainage and water permeability
- ◆ Allows tile replacement in high use areas
- ◆ Tested and approved

Red - Tile size: 500mm x 500mm. Tile thickness: 25, 30, 40, 50, 60 & 70mm.

Options. Rectangular: 1000mm x 500mm x 40mm. Sport tile: 500mm x 500mm x 40mm.

Green - Tile size: 500mm x 500mm. Tile thickness: 25, 30, 40, 50 & 70mm.

Options. Sport tile: 500mm x 500mm x 40mm.

Grey / Black - Tile size: 500mm x 500mm. Tile thickness: 25, 30 & 40mm.

Critical Fall Heights & Shock-absorbent Products

As playground equipment is available in various heights we offer a wide range of shock absorbant surfacing slabs up to a fall height of 3 metres.

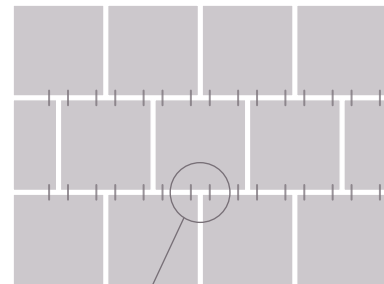

Guardian RubberLok safety tiles are tested in accordance with DIN EN 1176-1:2008 to determine the HIC value, and in accordance with ASTM-F-1292:2009.

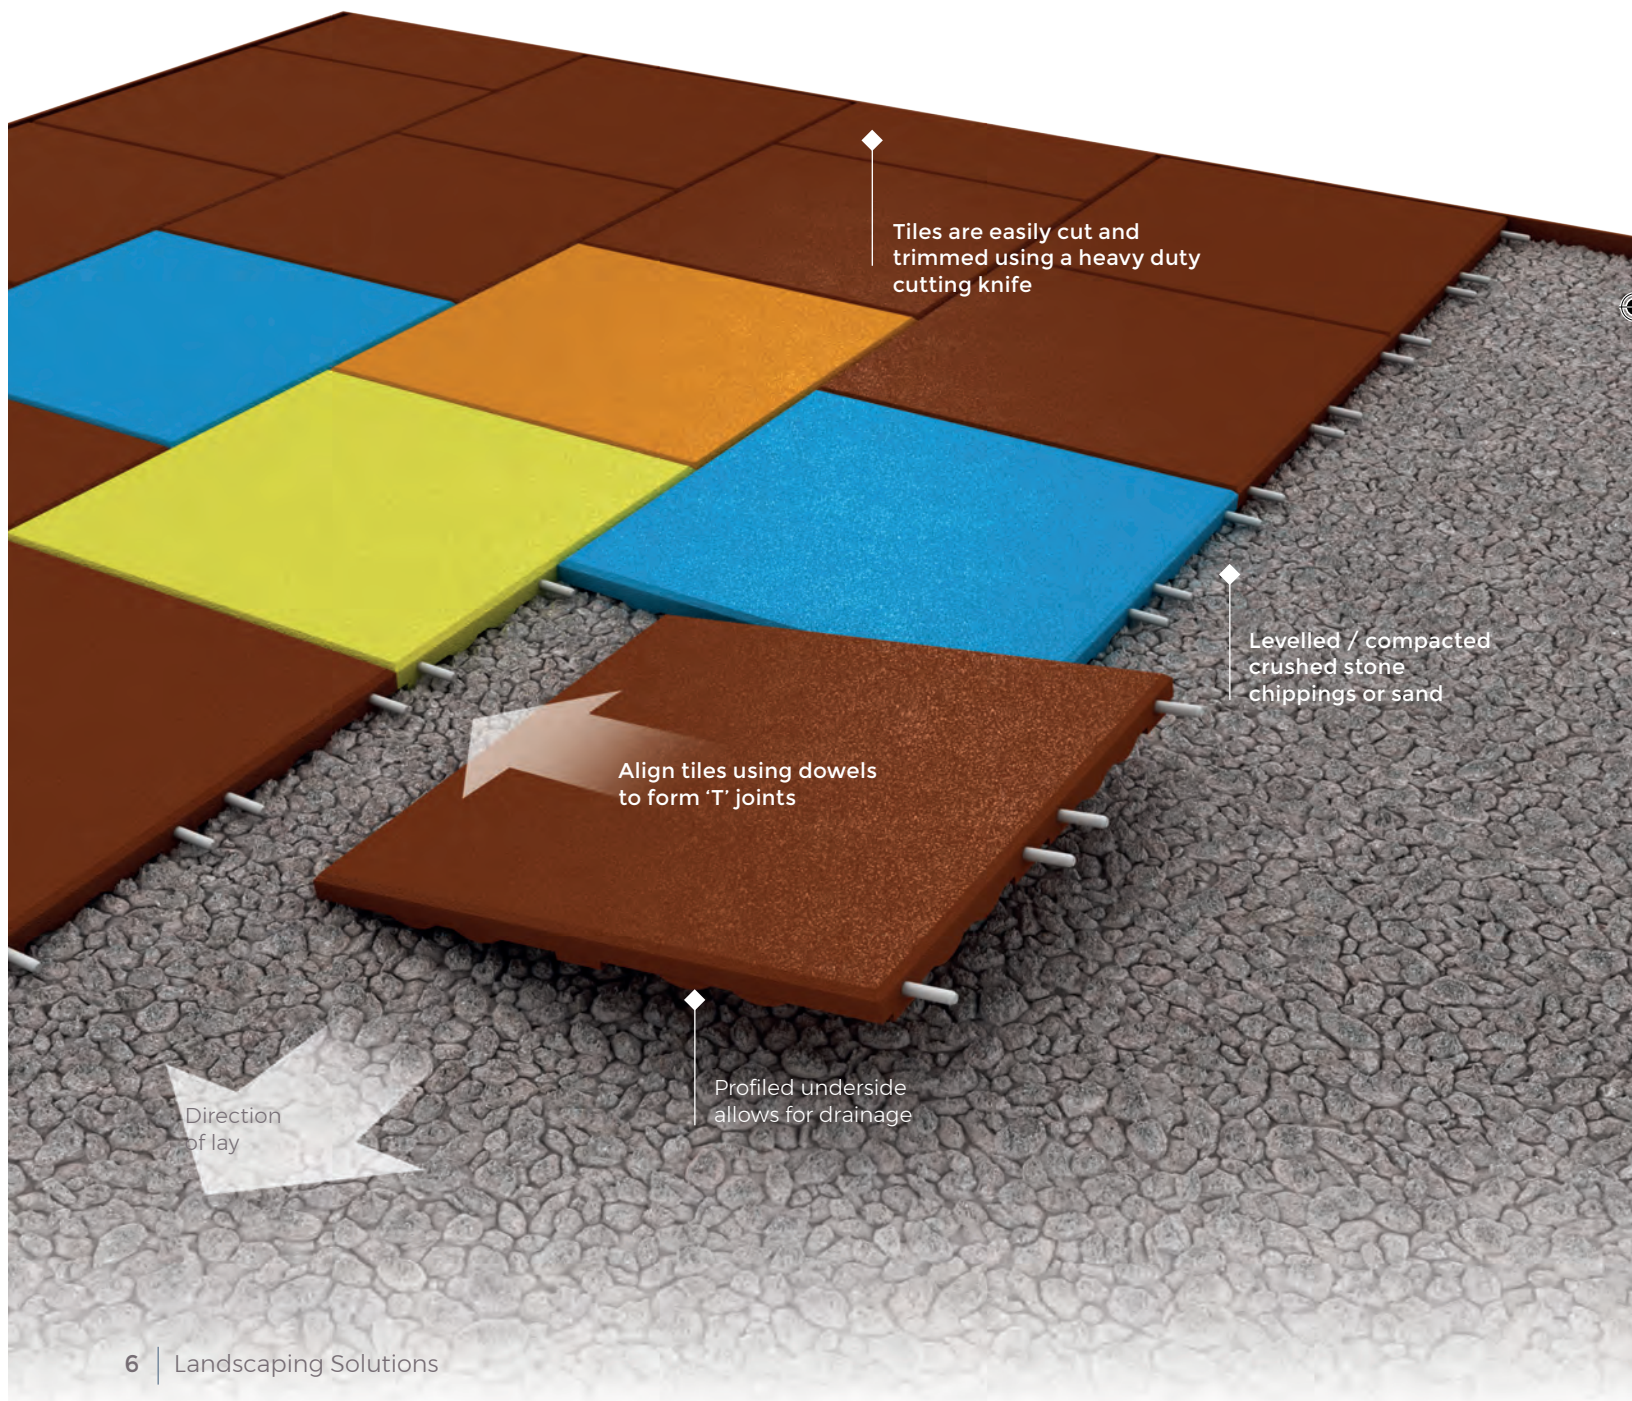

RubberLok Safety Tiles

RubberLok Safety Tiles are quick and easy to install, using a simple interlocking dowel method and requiring minimal groundwork preparation.

DuraDek

Composite Decking

The high-performance, durable and non-slip alternative to traditional timber decking.

Guardian DuraDek is a weather resistant, easy to clean hollow decking system available in three contemporary colours to add that extra dimension to any external living space.

DuraDek is quick and easy to install and features a double-sided profile offering a choice of two distinct finishes that can also be 'mix and matched' or reversed after a period of time.

Slip resistant and splinter-free, DuraDek is very low maintenance with no requirement for annual treatment or oiling to keep that just installed look.

- ◆ **Better** – does not rot, unlike timber decking, weather resistant and easy to clean
- ◆ **Faster** – quick and easy to install
- ◆ **Safer** – durable, slip resistant, split and splinter-free surface
- ◆ Low maintenance
- ◆ Hidden fixing system
- ◆ Environmentally friendly

A photograph of a modern outdoor patio. In the foreground, a wicker coffee table holds a vase of purple tulips. To the right, a wicker sofa with dark cushions is partially visible. The patio is made of dark brown wooden decking. A white pillar supports the pergola structure. In the background, there is a green lawn, various trees, and a house.

“An end to deck maintenance
with a reversible finish,
and unlike timber decking,
it does not rot.”

DuraDek
Brown

DuraDek

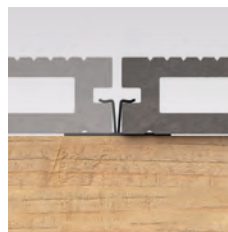

Composite Decking

Supplied complete with DuraDek stainless steel fixings for quick and easy installation, and with a colour coded edging trim available for that finishing touch.

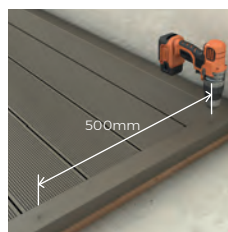

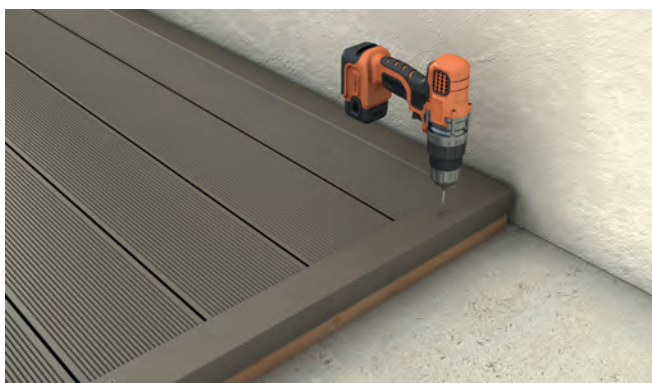

Once the area is prepared for decking, installation is made fast and simple by using specially designed clips and edging trims, ensuring a professional and long-lasting finish.

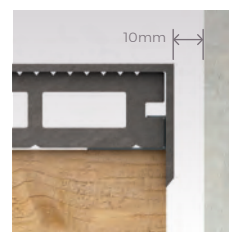

DuraDek stainless steel starter clip fixed using Ø3mm stainless steel screws.

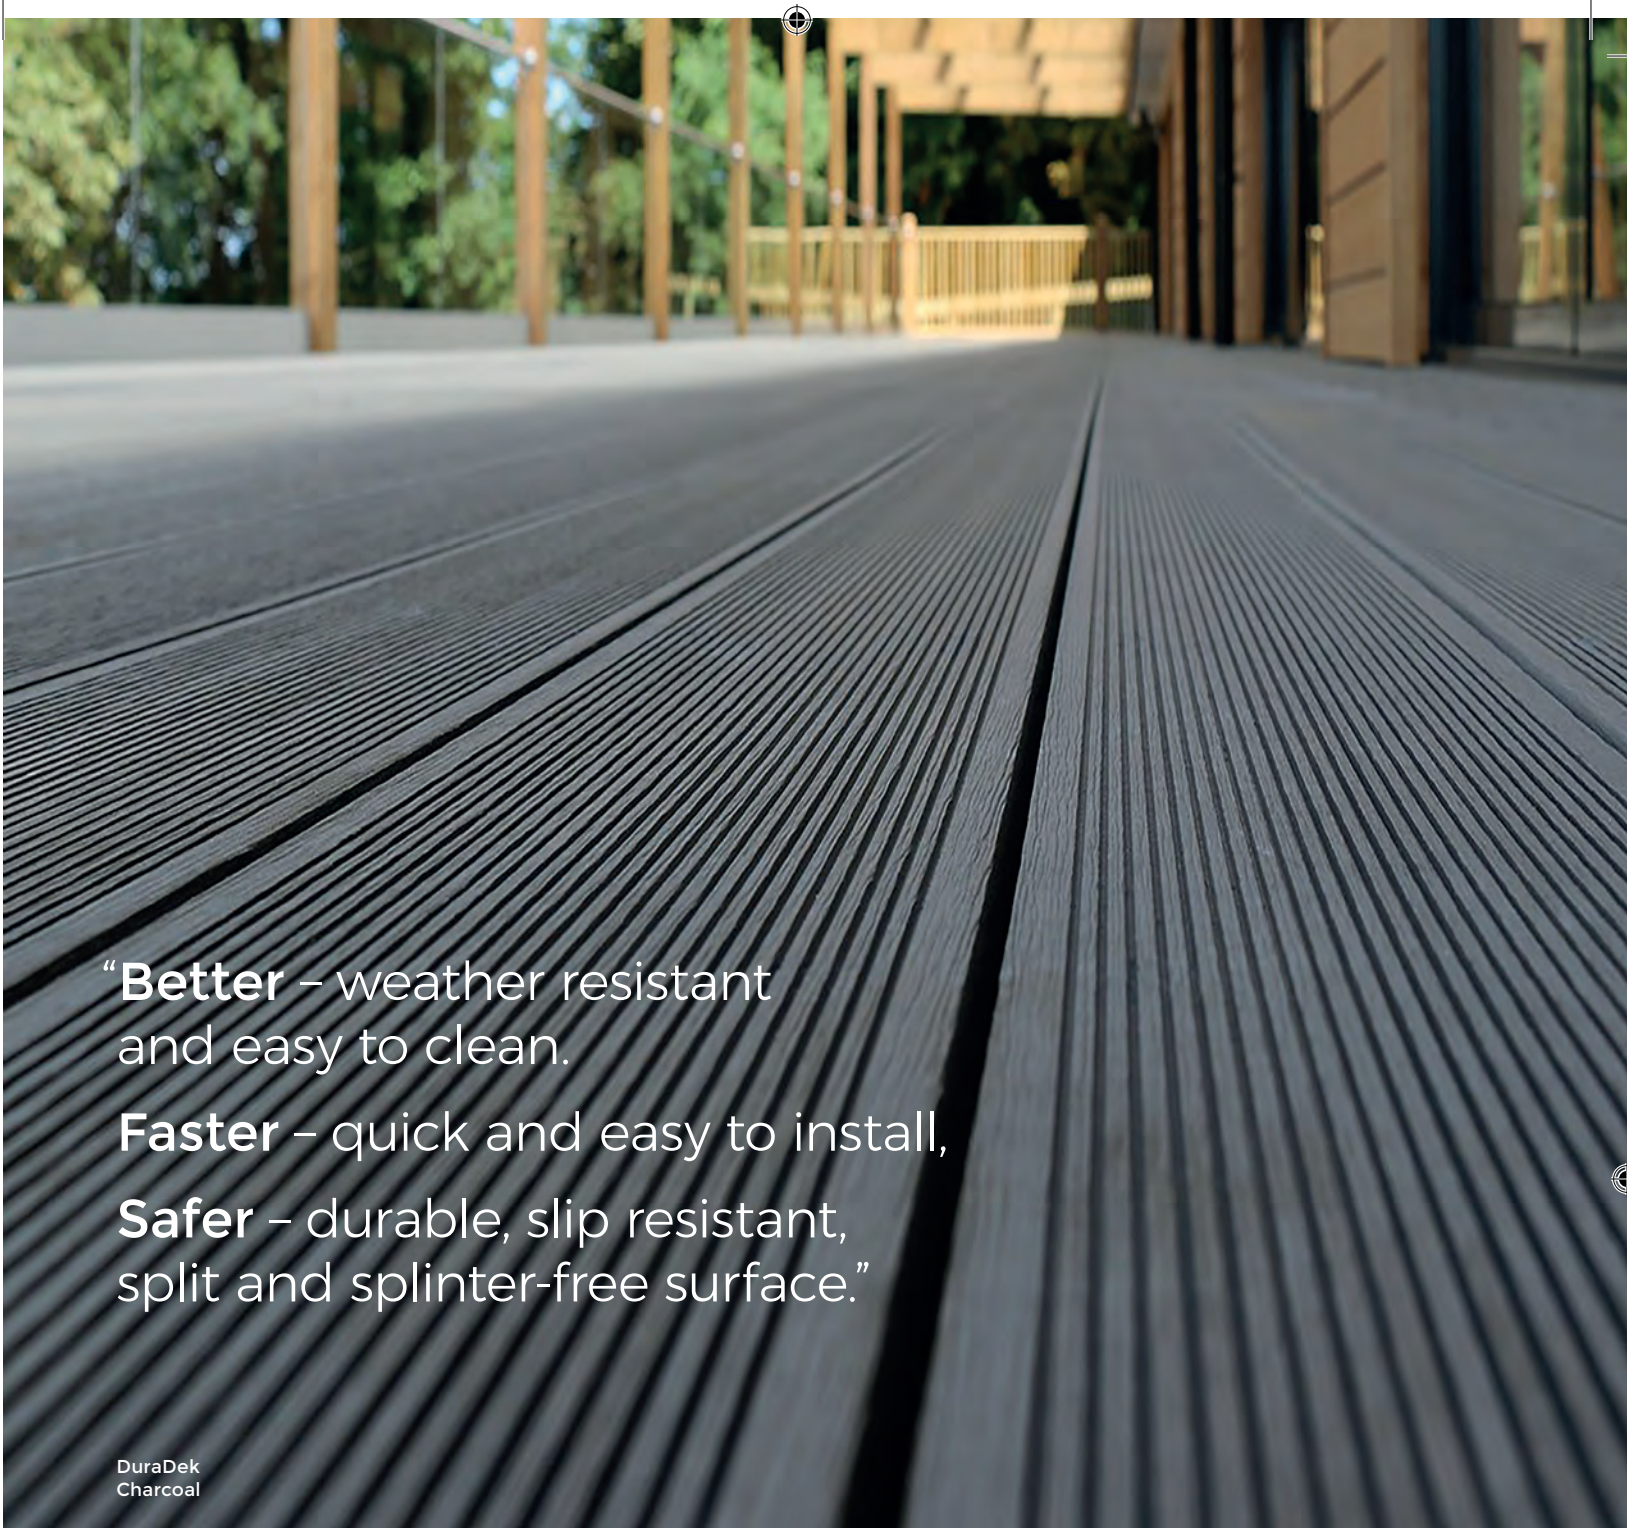

DuraDek stainless steel joint clip provides secure fit and even spacing of planks.

Fix colour-coded Edging Trim using Ø3mm stainless steel screws at 500mm centres.

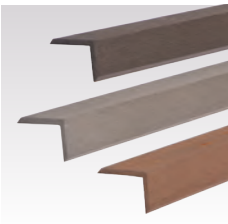

Provide a minimum 10mm gap between edge of decking and any adjacent wall.

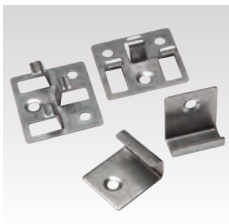

“Better – weather resistant
and easy to clean.
Faster – quick and easy to install,
Safer – durable, slip resistant,
split and splinter-free surface.”

DuraGrass

Artificial Grass

High performance, natural look artificial grass for the perfect lawn all year round.

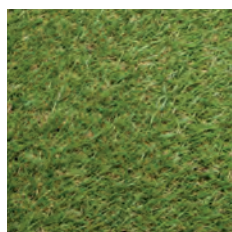

Guardian DuraGrass is an artificial grass system that transforms any garden, outdoor play area or open space with the perfect lawn – maintenance-free!

DuraGrass not only looks great and feels real, it's made to last. Manufactured using the latest technology, DuraGrass only uses base materials that are durable and don't contain organic matter which can rot over time.

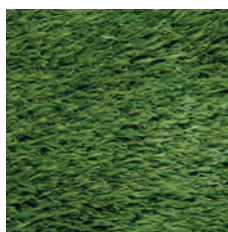

With three colour options available, you can choose the colour most suited to the surrounding environment.

SafetyGrass

Rubber Matting

Durable, non-slip, impact absorbing matting for heavily trafficked and hazardous areas.

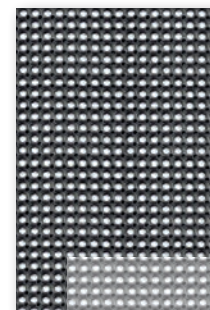

Guardian SafetyGrass rubber matting is ideal for grassed sites and walkways requiring extra protection from heavy traffic and erosion - either laying on solid surfaces or disappearing from view on grassed areas.

Guardian SafetyGrass allows grass to grow through 25mm holes while providing efficient drainage. Hardwearing, resistant to all weather and extreme temperatures, SafetyGrass can be laid on flat or contoured surfaces, with little or no groundwork necessary. Once the grass has grown through, it can be cut with a conventional lawnmower.

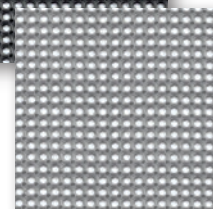

SafetyGrass is also ideal for safety protection on hazardous hard surfaces, providing a slip resistant, impact absorbing barrier.

- ◆ **Better** – affordable, maintenance-free and durable safety solution
- ◆ **Faster** – quick and simple to install and easily shaped around existing structures
- ◆ **Safer** – non-slip and impact absorbing
- ◆ Manufactured from recycled rubber
- ◆ Fully tested and compliant to EN 1177 and BS 7188
